PRODUCTS

304 STAINLESS STEEL PTFE COATED & PTFE GLASS FILLED MANDREL KITS

SMALL: 0.010" to 0.042"
\$1,500

MEDIUM: 0.043" to .084"
\$1,850

LARGE: 0.085" to 0.125"
\$2,250

X-LARGE: 0.126" to 0.445"
\$3,500

DELUXE: 0.010" to 0.445"
\$9,500

- Over 30 Catheter Build Mandrels In Each Mandrels Kit
- All Your Engineering Materials Organized In One Place For One Price
- Revolutionary PTFE Glass, Make The Unmakeable With PTFE Glass
- Multi Lumens, Tiny Lumens, Steerables
- Neuro Kits, Structural Heart Kits, Laser Cutting Kits, Venal Access Kits
- Nitinol Development Kits, M2 Tool Steel Kits
- Custom Grind & Cut Kits

CATHETER MANDREL KITS

INSTRUMENTAL IN YOUR SUCCESS

LAB
IN A
BAG

WHY CHOOSE LAB IN A BAG KITS?

- **Comprehensive Range of Mandrels** Each kit includes ~30 catheter-forming mandrels in various sizes, offering a flexible, all-in-one solution for rapid prototyping and catheter R&D.
- **Accelerate Your Speed-to-Market** Skip the line and streamline your development process! Eliminate the need to source individual mandrels, saving valuable time, and turbocharging each project iteration.
- **Cost-Effective Solution** Consolidated kits reduce overall costs compared to purchasing mandrels individually, delivering exceptional value with the variety you need for one price.
- **Make the Unmakeable** Manufactured with 304 stainless steel and coated with performance PTFE for easy removal. Try our PTFE glass-filled mandrels for complex designs or high-friction applications that require effortless release.
- **Every Application, Every time** Perfect for multi-lumen, steerable, neuro, structural heart, and laser-cutting catheter builds, these kits support a wide array of engineered applications.
- **Brought to you by the MCS Quick Ship Program** Ready to ship next day, ensuring you have the materials you need exactly when you need them, minimizing delays in your development cycle.
